Ex-Gov. WALKER is out in a very able letter against the English variation of the Lecompton Swindle. He prodicts that the Freemen of Kansas will spurn the infamous proposal by a major. ity of thousands, and intends himself to catvace the territory with that view.

The Democratic Members of Congress, having just tried to force Kansas into the Union, as a Slave State, against her will, are now gravely holding caucuses against promaturely, or hastily, admitting new States !

The Bornessa at New York, on Saturday brings some later foreign no we. The trial of Bornard, one of the alleged accomplices of Orsini, resulted in his acquital. But then he was tried in London and before an English Jury, instead of by a French Court under the eye of Louis Napoleon. The quarrel between Turkey and Montenegro begins to look ugly, and Russian troops are mustering on the frontier. The English Money Market shows further improve-

Discharge of Edward Dossling

Edward Dessling, the Prussian, charged with
forgery, whose case has caused so much comment and excitament, was tried at Paducah today, and acquitted, Judge Williams deciding
that the depositions taken in Prussia could not
the Admitted to Company to revidence. The unthat the depositions taken in Pressia could not be admitted as competent evidence. The nature of the depositions we have not heard.—Quite a demonstration was made by the people upon the discharge of the accused, but the Judge rebuked it, and said that he had not been governed in ble decision by popular feeling. Directly after the result of the trial was made known, Mr. Iseban, and the Pressian police officer, were arrested on a charge of false hyprisonment. The sentiment in Paducah was untirely with Dessing.

STARTLING RUMOR.—The Loxington Expositor of the 27th inst., says: On Saturday night has, passengers on the steamer Admiral, just down from Leavenworth, brought the starting news that Colonel Johnson's torce had buen attacked by the Morasons under Brigham Young, and badly defeated—the Morasons capturing thirteen pieces of artiflery. The story goes that the two messorgers had just arrived from the scene of action with despitches for government, one of them proceeded immediately to Washington .--We trust that the whole thing is a hear -- St. mis Democrat, April 30.

We cannot doubt that the above, like half a dozen similar tumora that have reached us, is utterly unfounded. We do not believe that the Mormons can muster force enough to give any serious trouble to the well-appointed, theroughly disciplined and ably led troops under the command of Gen. Jourson.

DEATH OF MR. L. J. VAN ORDEN .- We loarn, ORDEN, of Neosha, Dodgo County, died on Friday morning last, after a very brief illness. Mr. VAN ORDEN has resided in Wisconsin these ton or twelve years past, having emigrated hither from Cattskill, Green County, New York. In all the relations of life, as citizen, friend and husband, he was without repreach; and his sudden death will be deeply regretted by all who know him. He loaves a widow and young children to mourn an irreparable loss.

A PAYMASTER " DEFINING HIS POSITION." Col. Rouisson, editor of the Green Bay Advocate having been recently appointed to the lugrative and responsible office of Paymaster, to the 8th Division of the Wisconsin State Militie, thus, makes his acknowledgments:

Prasonal.—In another column will be found the division orders of Major General Temple Olark making sundry appointments, in which, we are pleased to observe, is included the name of the pleased to observe, is included the mane of the editor hereof as Paymester, with the rank of Colonel, of the 5th Division Wisconsin Militia.—And upon the table before us, as we write, there is a formidable document in the handwriting of Gov. Raneall, exhibiting the arms and great seal of the State, in which that efficien states that reposing special treat and confidence in our patriotism and fidelity, he has commissioned us to that important and literative office.

that important and luterative office.

We find ourself placed in a very delicate position as regards our attitude toward the two gentionents when we owe this high honor and profit. Receiving an appointment through the influence of Gen. Clark, when we have always regarded as a through Democrat—and yet being dependent, for our commission and retention in office, upon Gev. Randall, with when we have had yet regions mutures of Gibbanca are recommended. had very serious matters of difference upon great questions of public policy, it is natural that we should foel considerable anxiety that our rela-tions toward them shall not be mistaken. It may be recollected that we have commented somewhat adversely upon the doctrines which Gov. Randall has promulgated in his message, which might have led our renders to inter that we differed with him; but we desire to say that, upon a careful comparison of dates, we find that at the time we week those articles we were out

of town, and therefore we cannot be held responsible for them.

With these explanations we out responsible for duties as Pay-Muster, with the rank of Colonel in the Wisconsin Militia. We rank of Colonel in the Wisconsin Militia. We feel a distillence and inndequacy to the task, and shall rely much upon the lenioney of the gallant body to which we are attached. If in the heat of battle, when the groat cannons roar and the contest is hot, we shall be found missing, together with the fauds in our charge, we shall hope that the many remarkable procedents for such shortcomings, which have occurred in our State, may be sufficient excuse. In the meantime, the present condition of the State linances do not indicate that our labors will be burthonsome, at present; and if the existing Legislature shall sit much longer, we despair of ever being called upon to pay oil anybody.

WELL Sain .- The Green Bay Advocate, alluding to the stand taken by Senator DougLAS and a few other Domocrats in Congress, says:

All honor to the noble band of true Donno-crats who have withstood the wiles and bribes of Washington and steadily detended the po-sition of the Democracy in this issue. The pal-try emoluments of a paltry effice may not re-ward them now; but time at last seets all things even, and the day will come when the bread even, and the day will come when the break which they have east upon the waters will come back an hundred fold.

CAN IT PASS !-- In the Assembly on Saturday the following resolution was introduced: That the Speaker and Clerk be directed to cortify to the per diem and mileage of members from the 1st to the 9th of April inclusive—laid

That is to say, to pay the Members per diem and mileago during the recess; when it was expressly stipulated that they were to have neither. It would be a clear steal, and cannot, we presume, receive the sanction of either branch of the Legislature.

Receipts of produce, it will be seen, have greatly increased during the past week, and for the most part the market was active and prices well up. We learn the nearly all the farmets throughout the flate have the larger portion of their crops in the ground, and therefore more time to send in their old prop, hence the increase in receipts. Most of those who have been holding back their grain in hopes of realising high prices, have come to the, conclusion that the wiscet plan is to dis-pose of their grain at oursent yates, and not run the risk of a lower market. We hear from all quarters the most oncouraging reports of the prospects of an abundant harvest, both North and South. If the expeciations of many are realized in this, it certainly would not warrant

INVARIABLY IN ADVANUE. MILWAUKEE:

MONDAY MORNING, MAY 3.

The Mayor and the News. The News still refuses to be comforted at the election of Mayor Pararres and omits no opportunity to signify its disgust with the People for giving him their suffrages and with the Mayor himself for accepting the office thus conferred upou him. It is oatural, porhaps, that the News, baving traduced and villified Mr. PREN Tiss, very industriously, before the election, and discovering that its abuse only the more commended that gentleman to the confidence and support of his fellow citizens, should chorish a gradge against him and fed it fat on every cecasion. Honce its elaborate attempt, Saturday, to discredit and misrepresent the Mayor's Message to the Council. To be sure the News, though the " official" paper, carofully withholds the documont itself from its readers, but in liou thereof palms off upon them certain statements of its own, or of that " competent judge, ex-Comptroller Garoussa." Premising that the Sentine! "committed some blunders" in printing " the tabular parts of the official statement," the News, other advantages. with the help of its next friend, the " ex-Comp-

The Mayor states that the bonds issued for the

Second Ward amount to \$50,000. The correct amount of these bonds is \$5,000,—a difference indeed!

"The Mayor states" that the Second Word bonds amount to \$600,00 -- and not \$6,000 as on to Portage City, or some other point on the the News has it, or \$50,000 as misprinted in the Sentimel. The ligures were right to our copy, but wrong in the proof and the proof reader over-looked the error. The mistake did not however, affect the lootings. Ouco more, says the News:

The Mayor states that the amount of bonds past due and impaid, is \$35,000. The correct amount is \$25,000.

"The Mayor states" the amount of bonds past due and uppaid at \$25,500. As to the other mistakes which the News professes to discoverit is only necessory to say that the figures of the statement were obtained by the Mayor from the Comptroller's office, and are no doubt correct.

Of course, in view of these serious " flaws." the News taxes the Mayor with "blundering." "di logenuousuess," " lack of intelligence," &c. &c., all of which insinuations, weighed against the well known business talents and proverbial accuracy of Mr. PRESTISS, are not of sufficient consequence to call for reply. Those of our readers who remember the "official" statements which commuted from the Mayor's and Comptroller's offices but your-all of which the News thought the perfection of financial wisdom and accuracy-will be not a little amused at its pres. ent strictures upon the full, lucid and satisfactory statement of Mayor PRESTISS.

Before dismissing the subject, the News gives the Mayor another turn on the subject of the Police. It can no more forgive him for reducing the Police force and cutting off supernumeraries, than it can for being elected Mayor. Of course, in this, as in other matters, the News is at pains to falsify and misrepresent the language and conduct of the Mayor. It says:

The Mayor, in the communication under no-The Mayor, is the communication future no-tice, acknowledges that he discharged the mine policenter, and assumes the responsibility. The public will be pleased with this evidence of boldness in the Mayor. It is what he should have done in the first instance, lastend of de-nying, in effect, that he was mayor of the city, and attempting to shuffly the responsibility of an appropriate deed once a subsectional efficient. an angopular deed upon a subordinate officer.

The Mayor, as the News and all its conders perfectly well-know, never "attempted" anything of the sort. He took the responsibility of directing the discharge of the nine policemen, leaving with the Chief, as the law directs, the estection of the individuals.

The News, as in duty bound, sees "trouble ahead in this move of the Mayor. It says: It is indisputable that the order of the city, so uninterrupted through the last year, is bu-giming to be disturbed. Only the day belore yeaterday there were through or four sectious fights that were not checked by the police, for the sufficient reason that the sixteen assistant policemen can not be in every part of the city at one and the same moment. We articipate that this move of the mayor's will prove most unpopular; we sincerely hope it will not result in disaster.

Wo, on the centrary, "anticipate" that the move will prove most popular, and apprehend no "disaster" therefron. And if the News speaks words; and claims against the city for improvements made during the past year, and other expenses to Police force are unable to maintain peace lone have not been made. and order in the city, because they are too few in number, we undertake to say that plonty of | The City and Ward Taxes levied bt and trustworthy men can be found who will gladly take their places and discharge their du-

Mr. Strong and the Assembly.

The News affects vehicuant indignation against the Assembly, for their high handed " porsecu tion " of Messs M. STRONG, and against the Sentinel for pronouncing the Assembly right Do. Special April 17th, and Mr. Sraoxo wrong in this matter. This ready apologist for a recalciteant witness, after referring to what the Soutinel said about Mr. Strong's appoul, proceeds thus:

Not so think the people. Mr. Strong contended against the power of a fanctical and corrupt majority of the Legislature, for personal rights, for the rights of the people. It did nothing more; and even that was done with professional exactance and becoming readers.

ness and becoming moderation.

If a negro had been treated by a Democratic Legislature with one hait the harshness Mr. Strong has softered, the republican prose and craters all over the land would have been noisy with demunclations. Mr. Strong is only a white tion of Railroads to the amount of \$1,614,000,00, To the Fond du Lac & Mil. R. R. Co. 8114,000 00

Bah! This is the mercat pettifogging. The Republican Assembly treated Mr. Stacko, precisely as they would have done any other man, white or black, who was guilty of the same ofionce, and in exact conformity to the "sale Democratic precedent," set by the House of Representatives at Washington, in their treatment of the witness, Wotcore. The News had not the slightest fault to find with the latter proceeding, though Wolcorr was kept in juil a and to which I refer you for further information. month or more, for refusing to testify before a Committee of Congress. But it is "poley with denunciations" of the Assembly, who kept Mr. Strong in confinement one week for exactly the name offence; and until he yielded to a "sober second thought" and agreed to testify. There is not the elightest doubt that the Assembly, in I am informed by the Secretary of the Board of taking this course, were in the exercise of their drawn for the past and present years, is about defying their mandate, was guilty of contempt as well towards the People of this State, as of their Representatives in the Logislature, and was proporly and legally punished. And so, with rare exceptions, think and may the Press

and the People. Fort is the constant of the commission,—
We understand, that a Military Commission, consisting of Gon, flariney, Col. J. C. Johnston, Major Macrea, Mojor Sterman, Captain Pleasonton, Captain Humphrey and Major Chapman have been appointed to visit Fort Sucling, and report upon the expediency of retaining it as a Military Dopot to supply the U.S. advance poets on the worthwestern frontler. They arrived yesterday morning on the Itaska.—Minnesolian April, 29.

The expenses in this department for salaries of Chief of Police and Assistants, have exceeded eighteen thousand dollars for the past year. On the 18th of the present mouth I directed the Assistant force to be reduced to eighteen men, to take effect on and after the 18th itest. The order was compiled with by discharging nine Polico-men from service, and the expenses of the De-partment under the compensation recently estab-lished, have thereby been lessened more tuan fifty per cont. Mr. Karey, when here, first subjugated a two year old filly, perfectly unbroken. This he accomplished under half an hour, riding on her, opening an umbrolla, beating a drum upon her, &c.

He then took Cruiser in hand, and in three hours Mr. Rarey and myself mounted him. He had not been ridden for nearly three years, and was see vicious that it was impossible even to dress him, and it was necessary to keep him muzzled constantly. The following morning Mr. Rarey led him behind an open carriage, on his road to London.
